Volunteering

TheALA (Volunteering) | Website Administrator
Sept 2024 - Present

- Managed and updated content using Squarespace CMS.
- Designed UI assets to improve user experience and brand consistency.
- Applied SEO strategies to boost discoverability and search ranking.
- Monitored site performance and engagement to inform content updates.

Experience

Staples Canada (Corporate) | L1 Tech Support Specialist
Tech Sales → Head Resident Technician → Remote Tech
Jul 2022 - Present

- Diagnosed software/hardware issues and handled DNS, proxy settings, encryption, malware removal, and VPN deployment.
- Automated Windows shell sessions using BeyondTrust Bomgar to streamline remote support.
- Monitored automation systems, escalating and resolving issues with thorough documentation.
- Maintained data confidentiality and trained junior techs in session protocols and best practices.

Staples Canada | Head Resident Technician
Jun 2019 - Jul 2022

- Diagnosed and repaired hardware/software issues.
- Installed PC components and configured OS/drivers.
- Managed service tickets and repair workflows.
- Trained staff on diagnostics and repair procedures.
- Ensured high repair accuracy and turnaround under service-level expectations.

Infrastructure Canada (co-op) | Product Manager
Sept 2023 - Jan 2024

- Co-led development of a website, transforming a paper-based workflow into a responsive web solution using C#.NET MVC, JavaScript, HTML, CSS, and MySQL
- Built accessible, WCAG 2.0 AA-compliant interfaces with intuitive navigation for a broad user base.
- Conducted UX research and iterative wireframing, aligning UI with user needs and government accessibility standards
- Collaborated cross-functionally to integrate front-end components with secure back-end logic and database operations
- Managed project milestones and documentation, ensuring smooth testing and deployment within federal guidelines
